EDUCATION

Universidad Autónoma De Chihuahua   Graduating in December of 2022
Computer Science Engineering

EXPERIENCE

Leading Technologies   Chihuahua, Chih., México
Software Developer   December 2019 - March 2020
- Helped in both back-end and front-end development of a transformer status checker application for a local company, using Angular, node.js, and HTML.
- Contributed in the adaptation of the before mentioned application to a desktop app utilizing electron, and migrated the database to SQLite.

MexIHC (Eighth Mexican Conference on Human-Computer Interaction)   Chihuahua, Chih., México
Webmaster (Volunteer)   February 2020 - May 2020
- Gave maintenance to the official page of the congress, by adding any needed pages and keeping up to date all the information. Mainly used HTML and CSS.
- The site is located at www.mexihc.org/2020

NOTABLE SCHOOL PROJECTS

UACH's Programming Club   2019 - Present
Club Manager
- Participated in the planning of an introductory workshop about competitive programming for the students.
- Made 2 original competitive programming problems used in the Chihuahua's state phase of the OMI (Olimpiada Mexicana de Informatica).

AWARDS
